Rusty's Weigh was established in 1982 and is now the largest industrial scale company in the Southwest. In 2003, Mettler Toledo joined forces with Rusty's Weigh to supply scales from tons to milligrams in West Texas. Through the innovative designs facilitated by Mettler Toledo, we are committed to providing the best weighing equipment in the world, from the world's largest scale manufacturer.

We sell, service, manufacture, install, interface scales with computers, repair, and calibrate weighing systems, from the most precision lab balance to railroad track scales with locations in Lubbock, Amarillo, Wichita Falls, Abilene, El Paso, and Albuquerque, New Mexico. Customers include cotton gins, warehouses, and cotton oil processors; the fertilizer industry; feedlots; meatpacking and processing plants; grain elevators and terminals; oil field service companies; refineries; road construction companies; chemical companies; food processors; dairies; medical industry. The company's scales are frequently used in the commodity business where weight is the underlying mechanism through which goods are exchanged.
